Suppliers of Quality Free Range and Organic Table Birds

## X431A 'FARM RANGER'

The Farm Ranger is a bird achieving target weights of up to 3.6kg if taken over 84 days without having any detrimental affects in order to produce a larger family bird. It is a brown feathered, yellow shanked and yellow skinned bird. Increasing maize in the diet will enhance the flesh colour. The texture of the meat is much firmer than most, helped by the birds tendency to 'roam' far from its coup if allowed, hence the name Farm Ranger.
